Gather, Dine & Learn

Part of the Jasper Group family of brands, Community is furniture for public spaces.

The Community brand manufactures furniture that works where we live for how we live.

From elementary schools to colleges, from the doctor’s office to the hospital and from courtrooms to town halls, we provide solutions for the changing demands of our daily lives. Community’s offering of furniture is broad. It’s diverse. And it meets just about every need where you gather, dine and learn - no matter the industry or space requirement.
Recommended for Gathering, Doing & Learning

Gather. Coming together.
To relax, to learn, to work, to wait or just to be near others. Whatever the reason, Community provides all kinds of furniture for the places where people gather. Chairs, stools, lounge and bench seating that is designed and crafted for comfort and durability. Tables and casegoods for both work and play. From the smallest to the largest, anything and everything is just a call away.

Dine. Eating a meal.
Whether in a pub, a corporate cafeteria, a food court, a banquet hall, a hotel, restaurant or retail establishment, the basic needs are the same – a comfortable chair and a sturdy table. With time-tested selections of standards, mixed materials and customized solutions we’ve got a table and chair combination for you.

Learn. Gaining knowledge or skill.
From early childhood through college, and then continuing with career advancements, life lessons and recreational enterprises, we constantly strive to improve ourselves. With seating, desks, training tables, storage and support devices, Community supplies the tools needed for teachers and pupils to achieve their goals, and to reach for new ones.

- Utility cart
  - for files and that
Training Tables & Support Products

Cruz is a complete offering for learning environments and can be specified for any space where ideas are shared. Tilt/nest tables with modesty panels, wire management and linking capabilities can be configured into various shapes and sizes. Support products, in matching finishes, are designed to complement the tables and your surroundings.

Power Kits
Cruz offers both single and double circuit power options for small and large applications. Power kits include power boxes with grommets, connecting cables, wire clamps and safety linking plates. Data ports for internet and network connections are available. Tables can be reconfigured, tilted, nested and stored with power kits installed. Reference the Cruz price list and specification guide for complete details on power kits.

Non-Directional, Non-Sequential Power
A non-directional, non-sequential electrical package allows for power in virtually any configuration. Simply disconnect each table, change the configuration, and reconnect the tables no matter the order, no matter the direction. Power in-feed cables can be attached to whichever end of a configuration is closest to your power source.

Quick Disconnect Power Option
For multi-use training spaces, where the configuration may not change but the tables are often stored, a quick disconnect power option is offered. A quick disconnect wall outlet combines the durability of a hard-wired system with the convenience of a plug for dependable power and quick table storage.

Wire Management
A wire management chase is integrated into each Cruz training table leg for getting power and data from the floor to the table top. There are also options for under the table wire management channels and for organizing electrical cables provided through power kits. Tables can be tilted and nested with wire management and power kits.

Tops
Tops are available in any Wilsonart standard laminate in a variety of shapes and sizes.

Edge Options
Edge options are available in 3mm PVC and 2mm metallic acrylic finishes.

Base Options
The bases are powder coated, providing long lasting beauty and durability in high traffic environments. Cruz welded steel bases are produced in a cantilever configuration to standard height with base rail lengths matched with top sizes.

Mobility
Training tables and support products move quicker and with less effort on dual wheel casters. Once you get them in position, lock the casters to create a stable surface. Unlock the casters to return freedom of movement.

Edge Options
3mm PVC
- Black
- White
- English oak on cherry
- Shadow bourbon on cherry
- Ivory on maple

2mm metallic acrylic
- Titanium
- Aluminum
